**Subject:** Fwd: Life Safety Issue on Hillside Dr

Good Morning -

I want to report serious life safety issues that are being encountered by the residents on Hillside Dr in Bensenville. This has been going on for months and is only getting worse.

The residents are pleading with the village for relocation but nothing is being done. People are not sleeping, they are living in danger and are being exposed to toxic pollutants - specifically at landing when the wind vortex howls down the street.

See below for recent correspondence with the village and I also attached a video from this past weekend of a plane that is landing.

Please help us work with the City of Chicago and Bensenville on our relocation proposal before a serious accident occurs in these dangerous living conditions.
